pregnant & NOT READY?

you
are **NOT**
ALONE

we're here to talk...

free &
confidential

is there someone
I can talk to?

yes Contact us. You do not
have to face your
pregnancy alone.

how can I
know *my child*
will be cared for?

Every family that adopts through CAS is thoroughly vetted and prepared to bring a baby home. Our families offer:

- A two-parent Christian home that can provide your child with a lifetime of opportunities. Better yet, YOU get to pick the family you want to adopt your child
- Love for your child
- Financial security
- Stable family relationships
- An understanding of adoption issues

We have adoptive families who are
ready & waiting

to parent & can take the baby directly
home from the hospital with no need
for foster care!

**ADOPTION
IS NOT
giving away**

a child

It is

**GIVING TO
A CHILD**

will I have to choose
adoption?

no Our job is to give you truthful,
helpful information so you can
make an informed decision.

PLEASE HELP ME UNDERSTAND
what is an...

open adoption?

In an open adoption, the birth parents can choose and meet the adoptive family from our approved waiting families. The adoptive family and the birth family share information openly and can stay in direct contact after placement.

semi-open adoption?

In a semi-open adoption, birth parents can choose and meet the adoptive family but birth parents desire NOT to share identifying information. The adoptive family sends regular pictures and updates to the birth family. The agency serves as mediator for any contact.

closed adoption?

In a closed adoption, the birth family decides they do not want contact with the adoptive family or child. However, if at any time the birth family decides they would like to receive updates, they can request that.

you **choose**
the level of openness *you*
